Why organic? Organic foods are cultivated without synthetic pesticides, chemicals, GMOs (Genetically Modified Organisms) or otherwise altered seeds, animal feed, or radiation.

Just like non-organic Costco products, all organic farming methods are screened for their farming procedures. When a product meets organic requirements, it is USDA-certified organic, and, like all Costco products, still must undergo constant quality checks.

OFFERS VALID MONDAY, FEB. 3, THROUGH SUNDAY, MARCH 2, 2014
